Personal Profile

My professional and academic background is in NHS healthcare (nursing) and team management.

I have been a parent governor since 2010. My motivation to take on the role came from a keen interest in education and wanting to be more involved with the school that my children attend. I want to support the school and represent the parent view.

My focus to date has been on literacy, personnel and safeguarding. I currently serve on the 'School Improvement Committee' and I am the designated Safeguarding Governor.

It is a privilege to participate in the governance of the federation and heartening to see the significant progress and development that is continually taking place.
