Personal Profile

I am married with 2 adult daughters and have been a Teaching Assistant at the Infant School since March 1995.

My role has developed over the years and I'm now a full time Senior Special Needs Teaching Assistant, leading and running many interventions throughout the school. I am also an Emotional Literacy Support Assistant (E.L.S.A.)

I am passionate about the education of young children and the opportunities for all to succeed regardless of their background or abilities.

I am a member of the School Improvement Committee and have recently been appointed Link Governor for Foundation and Early Years, where I am keen to share my knowledge of the schools.
