

Geography

- Physical geography, including: climate zones, biomes, vegetation belts and rivers
- Use fieldwork to observe, measure, record and present the human and physical features in the local area using a range of methods, including sketch maps, plans and graphs, and digital technologies
- Use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied

Design and Technology

- Prepare and cook a variety of predominantly savoury dishes using a range of cooking techniques
- Understand seasonality, and know where and how a variety of ingredients are grown, reared, caught and processed

Science/PSHE

- Describe the changes as humans develop to old age both physically and emotionally throughout puberty
- Speech and language development and debating skills

The Great Outdoors

Summer 2

Our local area (June)

- Look at maps of Wyke and our coastline in detail
- Learn how to read and plot 4- and 6-figure grid references
- Explore our local area by going for a nature walk along The fleet. Along the way, we will look at geographical features of the land, photograph wild flowers and plants and have a picnic to enjoy the great outdoors around us.

Year 5

Outdoor Education (June)

The children will visit Weymouth Outdoor Education Centre to take part in team building outdoor activities, which could include:

- Orienteering
- Rock climbing
- Tunnelling (indoor caving)
- Sailing
