

## Modern Foreign Languages at Wyke Regis Primary Federation

### Intent Statement

At Wyke Regis Primary Federation, we aim to ensure a progressive development of foreign language knowledge, skills and vocabulary as part of a broad, balanced and differentiated curriculum.

We have designed our French curriculum to broaden our children's understanding of the international community and equip them with the skills to explore and communicate in any language.

The key components of language learning - **communication** and **culture** - link the learning from Year 3 to the end of Key Stage 2.

Through our Federation curriculum drivers, French lessons will develop the children's creativity by allowing them to explore sounds and patterns, build resilience by encouraging them to have a go, and raise their aspirations by allowing them to identify as global citizens.

We make our French learning inclusive to all learners by adapting learning tasks to suit childrens' needs. We want our children to leave Wyke Regis Primary Federation as tenacious and open-minded learners who understand the opportunities afforded to them by appreciating and understanding a variety of cultures.
